(54) Title: EXCHANGE OF NEWLY-ADDED INFORMATION OVER THE INTERNET

(57) Abstract: System and method for collecting and supplying ranked (270), indexed information as a premium service to users and advertisers. An information exchange is operated so as to aggregate, publish and subscribe Really Simple Syndication (RSS) and web services based information from different web based (110) and proprietary network sources. Recently published news or inventory information, new services or products are published into the system. Upon entry of the information, it is processed and distributed by the system to people, related parties or other systems that have expressed an interest in being notified of the type of published information as it becomes available.
